

Agile in a Nutshell

with a spice of Lean UX

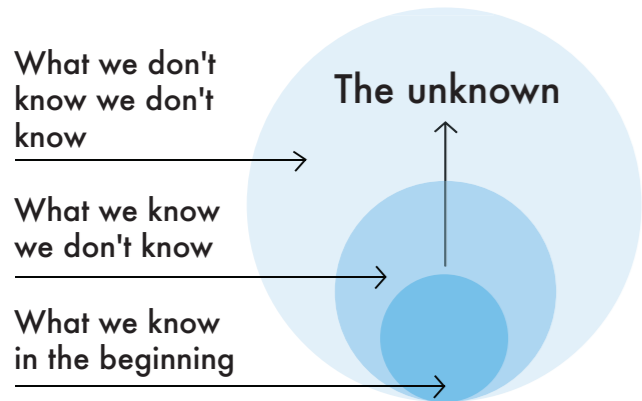

We are uncovering better ways of developing software by doing it and helping others do it.

Through this work we have come to value:

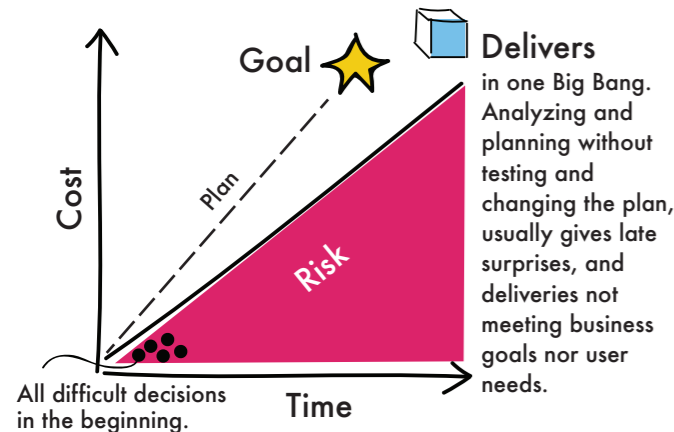

- Individuals and interactions over processes and tools
 - Working software over comprehensive documentation
 - Customer collaboration over contract negotiation
 - Responding to change over following a plan
- 2001 - Agile Manifesto

Version 2.5

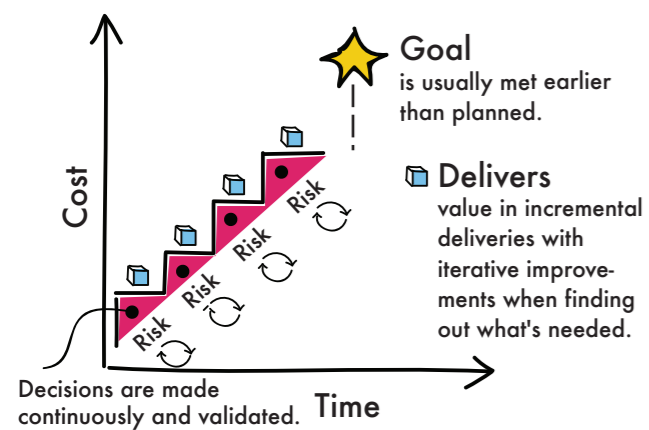

Why Agile

Waterfall - or "Faith Driven Development"

Agile - or "Incremental Development"
