

# Markus Elving

---

Senior Agile Coach, Product Owner, Lean and Agile Trainer

I am passionate about helping people and teams to deliver great products. Whether it is as a Manager, Leader or Coach is more semantics and I have experience from them all. I believe in autonomy as a motivating factor but it needs to be at weight with alignment. How we work and collaborate is just as important as technical excellence to deliver products.

## Roles I can take

- Agile Coach in and between teams
- Product Owner
- Delivery Lead
- Lean and Agile Trainer
- Facilitator
- Agile Manager

## Employments & assignments

### Sveriges Radio

**Product Owner / Agile Coach @ Sveriges Radio, Digitala Publika Produkter**  
*2021 August – Ongoing*

As a Product Owner for two of the core teams, the Web-team and App-team, I support in driving the digital product development towards the vision and strategy of SR. And as an Agile Coach I support the change of the organization to meet those needs, collaborating with the other Agile Coaches and Tech Leads to build capabilities for new types of teams with a new modular architecture.

## **Klarna**

### **Delivery Lead / Agile Coach @ Klarna**

*2017 August - 2021 May*

As a Delivery Lead at Klarna you are in the middle of everything trying to help Product and Engineering to deliver in the best possible way. Sometimes from a holistic perspective and often deep down into nitty gritty details. The dev-ops teams in Klarna have a clear responsibility but often we have company goals that span across these responsibilities, and then a Delivery Lead is in charge.

Agile practices and tools are a main contributor to the success of the delivery and I facilitate and teach around this quite often.

#### **Main deliveries that i have participated in:**

- The Klarna Card
- Monthly Invoice
- Slice it in 3 / Slice it in 4

On the side I coach and educate around Agile methodologies to teams all around Klarna.
